

## Chroma

In its calming nature  
Teal has a way of being both  
Strong and assertive  
yet subtle and meek.

Associated with ocean shores  
Peacocks and Echeveria elegans.  
It balances between green and blue  
Aqua and Turquoise.

Teal in its many shades  
works in any situation  
on any surface.  
For clothes and walls  
Teal emulates decency and renovation.

A combination of Blue and Green's traits  
Teal promotes clarity,  
open communication,  
and practical thinking when in its presence.

When in Teal's company  
I feel at ease and comforted in knowing  
I am capable of anything.
